In your opinion, what are the most sensitive resources (biological, cultural, recreational, ect.) in the Project area and why?

Proximity to homes - at least 1 mile away!!  
Causing possible bird migratory deaths  
Prop-like sound -  
Strobe effect

In your opinion, was the project description, purpose, and need for the project adequately explained? If not, what additional information is needed?

Initially, I felt - in Trempealeau County - the project idea slid into the forum. Because of concerns of many of us - the issue became prevalent and information was made known.

Please tell us how to reach you.
